Sayyid Al-Hakeem Commends Factions’ Stance Confronting Terrorism, Protecting State

His Eminence Sayyid Al-Hakeem, Head of the National State Powers’ Alliance and Leader of Al-Hikma National Movement, met with a large gathering of the organizational leaders of Al-Hikma National Movement in the Al-Ma’amil area of Baghdad, commending all efforts made in serving Iraq and Iraqis, calling for bearing hardships and difficulties for the sake of the Iraqi people, and stressing patience with results, as results do not come instantly.

H.E. affirmed the importance of moving from the stage of expansion to the stage of impact, explaining that serving people is a gateway to the pleasure of Allah the Almighty in this world and the Hereafter, and stressing the open declaration of the Movement’s identity and pride and honor in it and in the martyred leaders, while drawing attention to the importance of capitalizing on the acceptance Al-Hikma enjoys in providing service to the public and championing the national project, both at home and abroad.

H.E. explained that the targeting campaigns to which the Movement is subjected are evidence of its impact, noting that those who target Al-Hikma are of two types: those who have become victims of misinformation, and those with agendas, and explaining that the first type is the majority, which necessitates explaining the position and clearing up ambiguities before the public.

H.E. renewed the affirmation on settling the remaining ministerial portfolios so that the government can fulfill its commitments and implement its electoral program.

H.E. urged members of Al-Hikma National Movement to communicate with people and work to serve them, describing September 30 as a message of recovery for Iraq, valuing the factions’ stance in confronting terrorism and protecting the state, and explaining that weapons are handed over to the Popular Mobilization Forces as an official institution, while drawing attention to the importance of including all weapons outside the framework of the state in the resolution plan.
